

# The Voice (with Arduino mini)

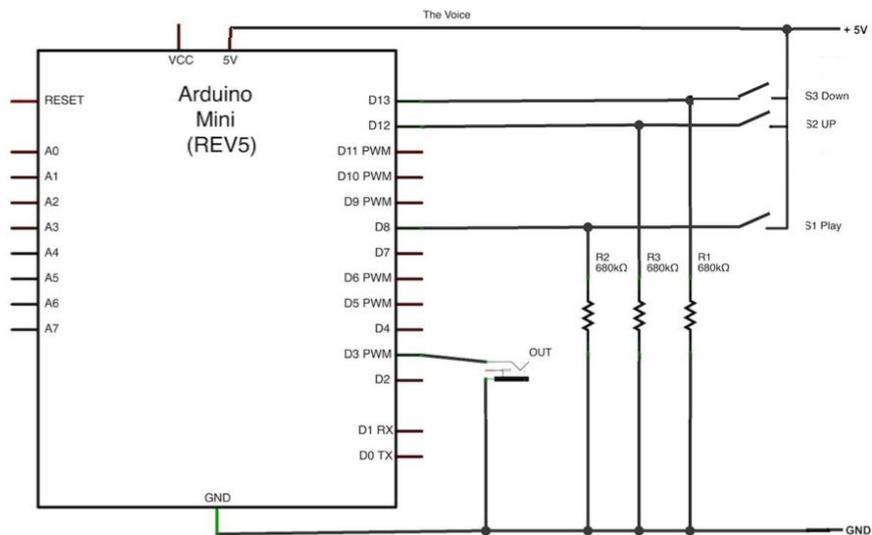

Install the library "Talkie"  
<https://github.com/going-digital/Talkie>

How to program the Arduino Mini, using Arduino one with USB:

- 1) Remove ATMEGA Chip (be very careful in making).
- 2) Connect: GND (Arduino mini) to GND (Arduino one).
- 3) Connect: Reset (Arduino mini) to Pin 1 (the socket atmega cip Arduino one).
- 4) Connect: TX (Arduino mini) to TX (Arduino one).
- 5) Connect: RX (Arduino mini) to TX (Arduino one).
- 6) Now you can transfer "the voice" in Arduino mini.

## Circuit Diagram:

look out!

I do not assume any responsibility for damage caused by any errors connections!
